CMSS National Online Sale

Sale Date: Saturday, October 18th, 2025

Once again, the Canadian Milking Shorthorn Society's National Sale will feature an impressive line-up of consignments of all ages from respected herds across Canada. The sale is being managed by Encans Boulet.

Our National Sale is an online sale, featuring an online catalogue with full pedigree information as well as photos and videos of consignments and their family members. Consignors would be glad to talk to interested parties in advance of the sale or to arrange a visit to see consignments in person.

Bids will be accepted starting at 12:00 pm ET on Friday, October 17th, 2025. Bids will close in a staggered closing starting at 2:00 pm ET on Saturday, October 18th, 2025.

SALE TERMS & CONDITIONS

1. Prospective bidders are required to register with Encans Boulet in advance of the sale to obtain a bidder number and login to their online bidding site. Bidding rules for Encans Boulet are available at www.encansboulet.com.
2. If health tests have been performed, results will be noted. If you would like additional health tests to be performed, please contact the sale manager at least three (3) full weeks in advance of the sale date.
3. All consignors have the right to set a reserve price on each consignment. Animals not meeting their reserve price will not sell. Reserve Prices will be posted on the sale website at least one week prior to the sale.
4. All consignments will remain at their home farms until payment is received in full and transportation arrangements are made. Consignors have been encouraged to provide estimates of trucking costs to a number of locations. For trucking costs to your area, please contact the consignor or the sale manager for an estimate. It is the responsibility of the consignor and seller to work together to arrange transportation with the assistance of the sale manager.
5. Transportation will be arranged with successful bidders after the sale, and the CMSS will help to make arrangements if necessary. For live animal and embryo consignments, the buyer agrees to pay all necessary transportation (and/or movement permits if applicable). For trucking costs to your area, please contact the consignor or the sale manager for an estimate.
6. Unless otherwise noted, every animal is sold as physically sound without noticeable blemish.
7. Any female pregnant when sold or that has freshened within 90 days prior to the date of sale is by these facts considered a breeder. Should any female not pregnant when sold fail to conceive within six months of the sale date, or if less than 15 months old when sold by the time she reached the age of 21 months, that matter should be reported to the Seller in writing. The Seller will then have the privilege of 6 months of time in which to prove the animal a breeder before refunding full purchase price.
8. Females bred when sold are presumed to be pregnant, but pregnancy is not guaranteed. The Seller makes no warranty that a female noted as safe in calf in the sale catalogue will deliver a live calf or that she will carry her calf to full term, nor is there any guarantee that the calf will not be mummified. Embryo transfer pregnancies as the same status as natural pregnancies.
9. The consignor is responsible for submitting registration papers for transfer, and then sending the transferred paper to the new buyer upon receipt of payment.
10. Payment is due by direct bank payment or e-transfer to the Canadian Milking Shorthorn Society within 72 hours of the sale. After payment is received, the animal is free to be transported to the new buyer. The CMSS will then pay the consignor minus commission fees. All prices are in Canadian dollars. Potential buyers who have not before done business with the CMSS should contact sale staff at least 24 hours before the sale to confirm financial arrangements.
11. Arrangements should be made for transportation within 2 weeks between the buyer and consignor, unless both parties agree to an extension of this time frame. For animals purchased by American buyers, they are free to discuss housing options with the consignor until transportation can be arranged.

Vente nationale en ligne de la SCSL

Date de la vente : samedi 18 octobre 2025

Une fois de plus, la vente nationale de la Société canadienne des Shorthorns Laitiers présentera une impressionnante sélection de lots de tous âges provenant de troupeaux réputés de partout au Canada. La vente est gérée par Encans Boulet. Notre vente nationale se déroule en ligne et propose un catalogue contenant des informations généalogiques complètes, ainsi que des photos et des vidéos des lots et de leurs familles. Les consignateurs seront ravis de discuter avec les personnes intéressées avant la vente ou d'organiser une visite pour voir les lots en personne.

Les enchères seront acceptées à compter de 12 h HE le vendredi 17 octobre 2025. La clôture des enchères se fera par étapes à compter de 14 h HE le samedi 18 octobre 2025.

CONDITIONS GÉNÉRALES DE VENTE:

1. Les acheteurs potentiels doivent s'inscrire auprès d'Encans Boulet avant la vente afin d'obtenir un numéro d'enchérisseur et de se connecter à leur site d'enchères en ligne. Les règles d'enchères pour Encans Boulet sont disponibles sur www.encansboulet.com.
2. Si des tests de santé ont été effectués, les résultats seront notés. Si vous souhaitez des tests de santé supplémentaires, veuillez contacter le responsable de la vente au moins trois (3) semaines complètes avant la date de la vente.
3. Tous les consignateurs ont le droit de fixer un prix de réserve pour chaque lot. Les animaux n'atteignant pas ce prix de réserve ne seront pas vendus. Les prix de réserve seront affichés sur le site web de la vente au moins une semaine avant la vente.
4. Tous les lots resteront à leur ferme d'origine jusqu'au paiement intégral et jusqu'à la prise des dispositions de transport. Les consignateurs sont encouragés à fournir des estimations des coûts de transport vers plusieurs destinations. Pour connaître les coûts de transport vers votre région, veuillez contacter le consignateur ou le responsable de la vente pour obtenir une estimation. Il est de la responsabilité du consignateur et du vendeur de collaborer pour organiser le transport avec l'aide du responsable de la vente.
5. Le transport sera organisé avec les enchérisseurs retenus après la vente, et le CMSS les aidera à prendre les dispositions nécessaires. Pour les envois d'animaux vivants et d'embryons, l'acheteur s'engage à payer tous les frais de transport nécessaires (et/ou les permis de déplacement, le cas échéant). Pour les frais de transport jusqu'à votre région, veuillez contacter l'expéditeur ou le responsable des ventes pour obtenir un devis.
6. Sauf indication contraire, chaque animal est vendu en bonne santé physique et sans défaut apparent.
7. Toute femelle gestante au moment de la vente ou ayant mis bas dans les 90 jours précédant la date de vente est de ce fait considérée comme reproductrice. Si une femelle non gestante au moment de la vente ne parvient pas à concevoir dans les six mois suivant la date de la vente, ou si elle est âgée de moins de 15 mois au moment de la vente lorsqu'elle atteint l'âge de 21 mois, le problème doit être signalé par écrit au vendeur. Le vendeur disposera alors de 6 mois pour prouver que l'animal est reproductrice avant de rembourser l'intégralité du prix d'achat.
8. Les femelles saillies lors de la vente sont présumées gestantes, mais la gestation n'est pas garantie. Le vendeur ne garantit pas qu'une femelle indiquée comme gestante dans le catalogue de vente mettra bas un veau vivant ou qu'elle portera son veau à terme, ni que le veau ne sera pas momifié. Les gestations par transfert d'embryons sont considérées comme des gestations naturelles.
9. Le consignateur est responsable de soumettre les documents d'enregistrement pour le transfert, puis de les envoyer au nouvel acheteur dès réception du paiement.
10. Le paiement doit être effectué par virement bancaire direct ou par virement électronique à la Société canadienne des Shorthorns Laitiers dans les 72 heures suivant la vente. Après réception du paiement, l'animal peut être transporté gratuitement chez le nouvel acheteur. La Société canadienne des Shorthorns Laitiers paiera ensuite le consignateur, déduction faite des frais de commission. Tous les prix sont en dollars canadiens. Les acheteurs potentiels qui n'ont jamais fait affaire avec la Société canadienne des Shorthorns Laitiers doivent contacter le personnel de la vente au moins 24 heures avant la vente pour confirmer les modalités financières.
11. Les dispositions relatives au transport doivent être prises dans un délai de deux semaines entre l'acheteur et le consignateur, sauf si les deux parties conviennent d'une prolongation de ce délai. Pour les animaux achetés par des acheteurs américains, ces derniers sont libres de discuter des options de logement avec le consignateur jusqu'à ce que le transport soit organisé.

Application deadline extended to October 1st!

Successful applicants are able to purchase up to four (4) embryos from top herds at a subsidized rate (\$200 per embryo price reduction), in addition to getting a free one-year membership to the CMSS.

Applicants will be selected based primarily on their interest in the Milking Shorthorn breed and their participation in breed improvement programs.

Priority will be given to herds that have never had Milking Shorthorns or herds relatively new to the breed.

**NEW PROGRAM
ALERT!**

SHORTHORN HEIFER

INCENTIVE PROGRAM (SHIP)

Successful applicants to the SHIP program will receive \$500.00 toward the purchase of a registered Milking Shorthorn heifer based on how they meet certain criteria, including whether the calf will be used as a 4-H project animal and whether the heifer will eventually be in a milk recorded and classified herd.

Priority will be given to applicants who are new to the Milking Shorthorn breed. The subsidy will be paid to the successful applicant after the heifer has been transferred to their ownership.

Applications are being accepted now.

Calves already purchased will have to be assessed for eligibility by the CMSS office

Application Forms available at www.milkingshorthorn.ca or from the CMSS office.
