This sale, managed by the Canadian Milking Shorthorn Society, features an impressive line-up of protein breed consignments of all ages from respected herds across Canada.

This is an online sale, featuring an online catalogue with full pedigree information as well as photos and videos of consignments and their family members. Consignors would be glad to talk to interested parties in advance of the sale or to arrange a visit to see consignments in person.

Bids will be accepted starting at 6:00 pm ET on Thursday, September 17th, 2026. Bids will close in a staggered closing starting at 12:00 pm ET on Friday, September 18th, 2026. Online bidding will be hosted by Unique Designs at <https://bid.uniquedesignsandmarketing.com/>

Terms & Conditions:

1. Prospective bidders are required to register with Unique Designs in advance of the sale.
2. If health or genetic tests have been performed, results will be noted.
3. All consignors have the right to set a reserve price on each consignment. Animals not meeting their reserve price will not sell and are subject to a catalogue fee. Animals will start bidding at their reserve price.
4. All consignments will remain at their home farms until payment is received in full and transportation arrangements are made. For trucking costs to your area, please contact the consignor or the sale manager for an estimate. It is the responsibility of the consignor and seller to work together to arrange transportation. The buyer agrees to pay all necessary transportation (and/or movement permits if applicable).
5. Females bred when sold are presumed to be pregnant, but pregnancy is not guaranteed. The seller makes no warranty that a female noted as safe in calf in the sale catalogue will deliver a live calf or that she will carry her calf to full term. Embryo transfer pregnancies as the same status as natural pregnancies.
6. The CMSS is not responsible for health status or fertility of consignments. If the buyer has any issues with a purchased animal, they should contact the seller directly.
7. The consignor is responsible for submitting registration papers for transfer, and then sending the transferred paper to the new buyer upon receipt of payment.
8. Payment is due by direct bank payment or e-transfer to the Canadian Milking Shorthorn Society within 72 hours of the sale. After payment is received, the animal is free to be transported to the new buyer. The CMSS will then pay the consignor minus commission fees. All prices are in Canadian dollars. Potential buyers who have not before done business with the CMSS should contact sale staff at least 24 hours before the sale to confirm financial arrangements.
